Description

The lines of the Fly 68 are sleek, subtle and sculptural. Her silhouette is shaped via advanced modeling techniques that research and emphasize the elemental continuity of the surfaces, breathing fluid boldness and extreme cleanness into the overall design. This evolved sense of aesthetics is explored and developed by the exterior designer Alberto Mancini, whose inspiration from the realm of car design has contributed to the creation of a new stylistic language for yachts, giving birth to an innovative ideal that enriches and empowers Azimut's design DNA in a dynamically distinctive way.

Welcome to Azimut.
